**B** RITISH JOBS are going to be at a premium over the next two years as today's financial crisis turns into tomorrow's economic recession.

We must safeguard all British jobs and ensure that they are only filled by British workers who are spending their wages in the British economy supporting their families here. Not migrant workers sending the money to dependents in Poland.

All migrants workers should be sent back to their own country and no more should be allowed in. But as long as Britain stays in the European Union, there is nothing that the Government can do to stop this influx of cheap labour from Eastern Europe. That is why the British National Party campaigns to take Britain out of the EU.

We face hard times ahead and to feed and look after our people we need to utilise all the resources we have at our disposal. We must strive for self-sufficiency in the food we produce and that means growing crops in our fields and not concreting them over to build houses for unwanted immigrants. We must also take back the waters around our shores so that British fishermen can once again provide fish for our tables rather than Spanish fishermen provide food for theirs.

We must invest in Britain's manufacturing industry so that we make the goods that we need ourselves and don't have to import them from abroad. We should ban all foreign imports and start building new factories and re-opening old ones so that we make the cars and the electrical goods ourselves

**B** RITISH JOBS are going to be at a premium over the next two years as today's financial crisis turns into tomorrow's economic recession.

We must safeguard all British jobs and ensure that they are only filled by British workers who are spending their wages in the British economy supporting their families here. Not migrant workers sending the money to dependents in Poland.

All migrants workers should be sent back to their own country and no more should be allowed in. But as long as Britain stays in the European Union, there is nothing that the Government can do to stop this influx of cheap labour from Eastern Europe. That is why the British National Party campaigns to take Britain out of the EU.

We face hard times ahead and to feed and look after our people we need to utilise all the resources we have at our disposal. We must strive for self-sufficiency in the food we produce and that means growing crops in our fields and not concreting them over to build houses for unwanted immigrants. We must also take back the waters around our shores so that British fishermen can once again provide fish for our tables rather than Spanish fishermen provide food for theirs.

We must invest in Britain's manufacturing industry so that we make the goods that we need ourselves and don't have to import them from abroad. We should ban all foreign imports and start building new factories and re-opening old ones so that we make the cars and the electrical goods ourselves that we currently buy in from overseas.

This will create new jobs for OUR people and will provide the wages that will keep families fed and warm during the approaching long, cold winter of recession.

The biggest crime of this Labour Government has been its policy of off-shoring British jobs to Asia and Eastern Europe. And what is equally criminal is that our trade unions have stood by and allowed this haemorrhaging of work from Britain. There has never been a more treacherous act than this from a Labour Government and its trade union backers.

The British National Party will not allow one British job to be sent overseas and firms that set up call-centres or factories in other countries will lose their right to operate in Britain.

The recession will hurt everyone and it's the duty of a government to look after its own people during such hardship - and here in the UK that means safeguarding British jobs for British workers and putting the interests of the British people first.

## Tory walks out on pensioners

**T**HE Conservative parliamentary candidate for Taunton Deane, Mark Formosa, turned his back on a pensioners' group in Somerset that had invited him to attend a public meeting about anti-social behaviour.

The event was organised by Taunton and Wellington Pensioners' Forum for Taunton Deane residents to discuss their views on how to improve the local community. But Formosa tore up his invite because a BNP spokesman had also been invited.

Forum committee member and spokesman for the Wellington branch, Roy Maggs, 74, said: "I am disappointed with the attitude of a politician who hopes to be our local MP. We are a non-political group. This event should go ahead and the BNP representative should come as it is very important to us and we have worked very hard to make it happen."

Forum member Shirley Barclay, 70, summed up the feeling of many when she said: "Whatever happened to freedom of speech and democracy? We are very disappointed by what's happened. The politicians are running scared."

## BNP website extends its lead

**T**HE British National Party's website is still by far the most popular political website in Britain and during October it even extended its lead over the old gang parties.

According to the Alexa Web Traffic Ranking, the BNP is in 57,906th place in the league table of the world's websites. That's up 140 places on last month. Of Britain's other political parties, the

Tories are the nearest challengers back in 132,787th place after dropping down 6,178 places in October.

Labour is next (227,532th - down 11,197) followed by the Lib-Dems (288,968th - down 54,009). But way down at the bottom of the pile is UKIP in 863,813th place. Its website is in freefall in the popularity stakes, dropping 281,796 places in the last four weeks.

Participants were also invited to supply their email address and links to the BNP's own website.

# Bully Brown targets BNP membership

**G**ORDON Brown is so worried about the electoral advance of the British National Party that he is targeting individual members of the Party in an attempt to bully them out of political activity.

Brown has forced an amendment into the Employment Bill to allow trade unions to ban British National Party members from joining their ranks which, in turn, could effect their chance of employment.

It is no secret that a growing number of Labour MPs feel threatened by the BNP's advances in their constituencies and that is why they are backing the move to change the law which since the early 1990s, has suppos-

edly made it illegal to exclude people from employment or union membership because of their membership of a particular political party.

Labour is worried that under the proportional representation system that will be used in the European parliamentary elections next June, the British National Party could secure seats in three of the 12 regions and that it why it is launching this offensive.

Under the list system, the BNP would need as little as 7.5% of the vote in North West England and only 11% in Yorkshire and the West Midlands to install Euro-MPs in the Brussels and Strasbourg parliament.

Labour also fears the BNP could become the largest party in two councils - Barking and Dagenham in Essex and Stoke-on-Trent as its nationalist policies are seen to be much more relevant as the British economy sinks into recession.

"It is a desperate measure from a des-

perate Government," BNP chairman Nick Griffin, told *Freedom*.

"It rides roughshod over our traditional rights for people to have freedom of association, freedom to make up their own mind as to their political beliefs and freedom to join the political party of their own choice."

## BNP grill Cameron on immigration in Croydon

by Bob Gertner

**S**ECURITY was tight for the David Cameron meeting at Croydon Town Hall in South London on Tuesday 7th October. ## FREEDOM - 100 up!

**W**ELCOME to this, the 100th issue of *Freedom*.

It's a milestone for the newspaper and the British National Party and a timely one, coming in the year when the Party has achieved its greatest success of all - winning a seat on the Greater London Assembly.

I took over at the helm of *Freedom* in June 2002, just after our breakthrough in Burnley where we won three seats. The first issue I edited was No.26 and the 74 following newspapers have all had the same over-riding purpose - to nail the lies of our opponents and their friends in the media and to show the public the true face of the BNP and the actual policies that we advocate.

It has been a rather uneventful six and a half years with not even one solicitor's letter to complain about the content of the newspaper. That is very different from my time as editor of *NF News* and *The Flag* when I was constantly being bombarded with writs and visits from the police in an attempt to close those newspapers down.

The only excitement was in September 2005 when 60,000 copies of *Freedom* No. 64 were seized by police at Dover docks. No doubt

the Government was hoping that there was something in that issue that they could use to bring us to book, but unfortunately for them the Crown Prosecution Service said that everything in the newspaper was "acceptable". On a personal note, I am pleased to 'see-in' this 100th issue of *Freedom*. For ten years I edited and published *The Flag* and during that time produced 92 issues. I was disappointed that I never reached the century with that newspaper, so this issue is extra special for me. I hope you enjoy it.

Martin Wingfield.

# BNP grill Cameron on immigration in Croydon

by Bob Gertner

**S**ECURITY was tight for the David Cameron meeting at Croydon Town Hall in South London on Tuesday 7th October. There were bag and body searches and photo ID was painstakingly scrutinised before anyone was allowed to enter the building which left people wondering whether this was what a future Britain would be like under a Tory government?

The evening was billed as 'Cameron Direct', and a chance for the public to pin down the Tory leader on the important issues. After introductions the first question was called for and as eager hands shot up all over the hall, Cameron chose local BNP member Charlotte Lewis, who was seated in the front row. Charlotte asked:

'I'm very concerned that senior Tories are advocating the preposterous

Labour idea of granting an amnesty to 600,000 illegal immigrants, who should be deported. What will you do with regard to this amnesty issue?"

JOHN CLARK: His question exposed Conservative policy on immigration.

Mr Cameron rubbed his chin and stated that under his leadership, if he was to become Prime Minister, this wouldn't be allowed to happen. So that's one promise on which the BNP will hold him to his word.

After some more questions from the public in which Cameron's answers seemed to encourage Sharia law in Britain and the setting up of Islamic state schools across the country, it was the turn of Croydon BNP's Prospective Parliamentary candidate John Clark, to pose a question. He asked:

"In 1979, when Margaret Thatcher came to power, she said she that she was going to halt any further immigration into Britain. Are you going to do the same?"

Cameron claimed that Thatcher had never said that, and although limits might be put in place, immigration could never be completely halted.

## Newcastle's 'Asia Town' halted

**P**LANs for a new mosque and an 'Asia Town' scheme in the West End of Newcastle have been scrapped after a massive Newcastle BNP 'Say NO to Asia Town' campaign.

The issue dominated the Elswick local election in May where British National Party candidate Ken Booth, was just 276 votes behind Labour having polled more votes than the Lib-Dems, Tories and Respect combined.

The council had invited bids for the former fire station site but has now decided

against the 'Asia Town' development of a mosque, Asian food outlets, Asian goods and services, after acknowledging that it would exclude much of the community.

## Denby residents get the truth about the BNP's Family Festival

**A** DAY of action in Amber Valley has countered the smears put out by the Labour Party about the BNP's Red, White and Blue Family Festival.

The 'Meet the BNP' edition of *Freedom* containing the report of the weekend, and a special leaflet were delivered to every household in Codnor and Denby Village where the festival was held back in August. Then there had been violent disturbances when Labour Party thugs, trying to stop BNP members and their families from attending the gathering, fought

running battles with the Police.

The distribution of the newspaper and leaflet was in response to the reporting of the event by the *Derby Evening Telegraph* newspaper which misrepresented the truth of both the BNP festival and the violent protests of the Labour Party.

In the village itself, there's a groundswell of BNP support as was shown when local farmer Alan Warner, who plays host to the BNP festival each year, won 18% of the vote in a local council election.

It is how our vote will effect next June's European Elections that is of most interest.

This time things will be very different with greatly increased support for the Party in the county. There have been recent BNP votes of over 17% in Carlisle, Wigton, Maryport, Whitehaven and now Workington - which should help to get Nick Griffin elected.

**M**EMBERS of the Sikh and Hindu community in Billesley, Birmingham, joined a British National Party demonstration against proposals that a former doctors' surgery be allowed to become a mosque.

A muslim group has been given the green light for the change of use of the building and told they don't even have to apply for planning permission as they don't intend to alter the outside. But residents are unhappy because with a prayer room that caters for over 100 worshippers and car parking for just 13 cars, it will mean that the roads around the mosque will be clogged up with cars when prayers are called.

South Birmingham organiser Les Orton, met with the police who were happy for the demo to take place and within minutes of the start fifty locals had joined the BNP protesters. This included Sikhs and Hindus who said

**NO TO THE MOSQUE:** A Sikh stands with Simon Darby to voice his opposition.

they too were opposed to the mosque. BNP Deputy chairman Simon Darby, explained the Party's opposition to the change of use, while almost one-in-two passing motorists beeped their horns in support.

"The residents we spoke to were unhappy that their three local Tory councillors are all backing the mosque

despite being told at a recent ward meeting, that without exception local residents opposed it," Les Orton told *Freedom*. "When councillors deliberately ignore the wishes of those who elected them, they can expect to be punished at the next round of local elections. Hopefully the BNP will pick up a lot of this lost support."

# BNP attacks Labour for putting our children at risk from Tuberculosis

CHRIS BEVERLEY.

**B**BRITISH National Party councillor Chris Beverley, is leading a campaign to end what appears to be a case of blatant discrimination against British children in schools in Leeds.

This issue was brought to Councillor Beverley's attention by a delegation of parents from a local high school who were upset that their children were being denied a vaccination against tuberculosis (TB).

The vaccinations were given to pupils from certain ethnic minorities, yet were being denied to English children, and even to those whose parents had specifically asked for them to be vaccinated.

Tuberculosis was once a prolific killer in Britain, but in the 1960s medical advances drastically reduced its occurrence. Yet since the arrival in Britain of immigrants from the Third World, where TB is still a problem, cases in this country have increased significantly.

Whilst TB is largely a Third World disease, anyone can catch it and this means that our children are just as vulnerable and in need of immunisation as are the

children from 'ethnic minorities' who qualify for the vaccination.

Councillor Beverley has taken this complaint to the Leeds Primary Care Trust (which has now been renamed *NHS Leeds*), which is the body responsible for carrying out the vaccinations. They say that this policy comes from the Government.

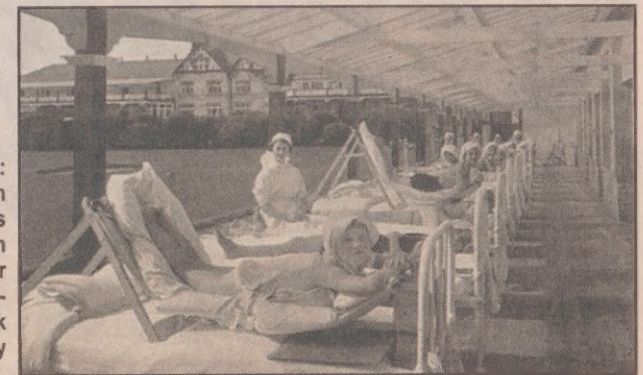

**What a disgrace. The very Labour Government that is responsible for re-introducing TB into this country through its open-door immigration**

Chris Beverley is working with a local family that is currently taking legal action over this issue. He also raised the matter at a Leeds City Council meeting.

He told his local newspaper:

Who is next?

# The fight-back begins!

At last, Britain's forgotten victims of racism will be given the recognition that they deserve, following the launch of the British National Party's *Racism Cuts Both Ways* campaign, at the beginning of November.

For too long, Labour, the Tories, the Liberal Democrats and their friends in the media, have deliberately covered up the extent of anti-White racism because they feared they might lose the ethnic minority vote if they drew attention to it.

## What We Stand for

**CRIME:** A crack-down on crime with many more 'Bobbies on the Beat'. Much tougher treatment of criminals, including the return of capital punishment for child killers and terrorists. Zero tolerance for drug-dealers and violent thugs.

**IMMIGRATION:** An end to immigration and bogus asylum seekers flooding Britain. Use the £billions wasted in foreign aid to fund 'Homeward Bound' schemes to encourage immigrants to return to their land of ethnic origin.

**INDUSTRY:** British ownership and control of British industry and resources, including the mass media. Protection of British jobs and industry by selective exclusion of foreign manufactured goods from the British market.

**HEALTH:** We will use the vast sums of money now wasted on funding our membership of the European Union for the restoration of an effective national health service and proactive measures to produce a healthier population in the first place.

**EUROPEAN UNION:** British withdrawal from the European Union to restore Britain's freedom. We will trade with Europe where it benefits Britain, but want no political ties or monetary union.

**EDUCATION:** A return to traditional methods of education, with stronger discipline in the classroom and an end to 'trendy' teaching methods which have failed our children so badly.

**ENVIRONMENT:** A healthy environment for a healthy people - the protection of our countryside. A ban on greenfield-site house building except in exceptional cases of genuine local need, an end to field trials of GM crops, and the restoration of our 200 mile fishing limit.

Most people do, which is why we are the fastest growing political party in Britain today.

## EURO-ELECTION APPEAL

The British National Party is on the verge of a major breakthrough into mainstream politics. Last May, the BNP achieved another good set of local election results and gained representation on the Greater London Assembly. In June 2009, it's the European Elections and it is vital that we continue to make progress.

But to win against the old gang parties in such a fiercely contested set of elections needs considerable funding and we are appealing for your help as the BNP makes this vital push for power in order to save our country.

## Righteous anger & political action

**T**HE British National Party believes in telling the truth, even if it is sometimes uncomfortable to hear or offensive to those who would rather bury their heads in the sand than face real problems in our society.

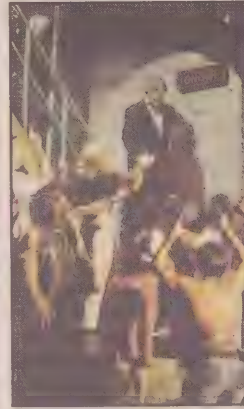

But while we often pass quite critical comment on the impact of immigration, multi-culturalism and alien religions on the indigenous people of our lands, we have no animosity towards immigrants, their descendants or the followers of non-native religions.

Nor do we intend to encourage others to feel such animosity, or believe that

anything we have to say is likely to 'stir up hatred' against anyone. In fact, we believe that by providing a peaceful and Constitutional outlet for the anger and the frustration felt by millions of our people over the undemocratic transformation of our country by our political masters, the BNP actually defuses tensions.

**Where there is 'hate' we seek to turn it into righteous anger and political action against the only people who deserve to be hated - the politicians who use our taxes to turn our country into a place where we often feel like strangers in our own land.**

**T**HE Director General of the BBC has admitted that the Corporation's programme makers tackle Islam differently from Christianity.

Thompson acknowledged that because Islam is a minority religion it was treated with more sensitivity, which means that there are no Muslim villains or anti Muslim story lines in BBC drama and no Muslim jokes in BBC comedy. That's very different to the Corporation's treatment of Christians who had to suffer the stage show *Jerry Springer - The Opera* broadcast live on BBC2.

CHANGE NEEDED: Mark Carleton-Smith and Afghanistan's tribal warlords.

that can't be defended in any other  
way. It is not to "spread democracy"  
or impose our way of life on other  
nations and cultures.

In Afghanistan we do have two issues  
which concern us. Firstly, we need to  
stop the large-scale growing of the  
opium poppy, from which heroin is  
produced. Afghanistan is the ultimate  
source of 90% of the heroin peddled  
on British streets.

Secondly, we need to stop the country  
being used as a safe haven from which  
Islamic terrorists can strike at Britain  
and other Western nations.

Both these aims can be achieved more  
reliably at less cost and without put-  
ting British soldiers at risk.

We must apply the lessons that we  
learned over 100 years ago after two  
earlier disastrous bloody failures of  
British armies in Afghanistan. Then  
the issue was Afghans raiding over the  
border into British India and support-  
ing Russian imperial interventions in

Central Asia.

After many brave British soldiers died  
on "Afghanistan's bloody plains", we  
learned a better way. We simply paid  
the tribal warlords who, then as now,  
ruled the Pashtun lands of Southern  
Afghanistan, to police themselves and  
leave us alone.

Today, we need simply offer to pay the  
Afghan warlords slightly more than  
they can each earn from selling their  
heroin poppy crop to global drug deal-  
ers NOT to grow poppies. In effect,  
we'd give them "set-aside payments"  
on their fields.

We would also put a massive bounty  
on the heads of al-Qaeda leaders and  
pay the warlords an additional subsidy  
not to offer hospitality to al-Qaeda or  
anyone else using their lands as a base  
to attack Britain.

Such a policy would safeguard  
essential British interests at far  
lower cost and without sacrificing  
our servicemen.

and South Africa have been signed up to the service.

There are now over 6,500 foreign soldiers in the British Army which accounts for almost 7% of its manpower, a figure which is going to rise as 20% of all applicants wanting to join the Army are now foreign. Back in 1997 the number of foreign soldiers was 0.3%.

The Ministry of Defence has admitted that senior commanders are worried about "the risk to operational effectiveness from an over-reliance on personnel who are not British citizens."

They have called for "Armed Forces which are predominantly British and whose members reflect and share the culture and values of British society".

He said that in the end would have to be done with the Taliban - the very enemy that our troops are meant to be defeating to end international terrorism! Since Tony Blair followed George Bush into the invasion of Afghanistan in 2001 (a policy continued by Gordon Brown) 119 British servicemen and women have died there. And the death toll is rising as the Taliban take back control of much of the south of Afghanistan because the people there have turned away from the corrupt regime of US puppet Hamid Karzai. No British Government should be sending our soldiers, whose role is to defend Britain and the British people, to lay down their lives in a war that they cannot win.

There is only one reason to fight a war. To defend our own national interests

**CHANGE NEEDED:** Mark Carleton-Smith and Afghanistan's tribal warlords.

that can't be defended in any other way. It is not to "spread democracy" or impose our way of life on other nations and cultures.

In Afghanistan we do have two issues which concern us. Firstly, we need to stop the large-scale growing of the opium poppy, from which heroin is produced. Afghanistan is the ultimate source of 90% of the heroin peddled on British streets.

Secondly, we need to stop the country being used as a safe haven from which Islamic terrorists can strike at Britain and other Western nations.

Both these aims can be achieved more reliably at less cost and without putting British soldiers at risk.

We must apply the lessons that we learned over 100 years ago after two earlier disastrous bloody failures of British armies in Afghanistan. Then the issue was Afghans raiding over the border into British India and supporting Russian imperial interventions in

Central Asia.

After many brave British soldiers died on "Afghanistan's bloody plains", we learned a better way. We simply paid the tribal warlords who, then as now, ruled the Pashtun lands of Southern Afghanistan, to police themselves and leave us alone.

Today, we need simply offer to pay the Afghan warlords slightly more than they can each earn from selling their heroin poppy crop to global drug dealers NOT to grow poppies. In effect, we'd give them "set-aside payments" on their fields.

We would also put a massive bounty on the heads of al-Qaeda leaders and pay the warlords an additional subsidy not to offer hospitality to al-Qaeda or anyone else using their lands as a base to attack Britain.

Such a policy would safeguard essential British interests at far lower cost and without sacrificing our servicemen.

## Labour council hikes heating charge by 76%

**L**ABOUR is hitting the most vulnerable British people by raising district heating charges by a staggering 76%.

With the effects of the credit crunch already causing problems, the Labour Council in Leicester has decided to turn the screw even further on residents in New Parks.

Council tenants in the flats on Aikman Avenue are facing a very difficult time ahead after receiving a letter from the council increasing their district heating bill from £12.33 a week to a staggering £21.72 - that's an increase of 76%.

Melanie Hemmings, the BNP representative in New Parks who polled 778 votes (22%) and came second to Labour in 2007, said the rise was a scandal.

"It's an extra £488.28 per year for some-

thing that can't even be reduced as district heating is a set cost, no matter how much you use it.

"Many tenants in New Parks are unemployed and amongst the most deprived in Leicester and this will come as a further blow to them. On top of this, the payment is simply for heating and hot water, the residents still have to pay water rates on top of this," she said.

**MELANIE HEMMINGS:**

## Muslims put first

**P**ARENTS of children at Old Palace School in Croydon are upset because they feel that the interests of Muslims pupils are being put first.

Concerns were first raised after it was revealed that their children had for 8 years been unknowingly eating ritually slaughtered meat for school dinners.

The school has been serving Islamic halal meat to ALL children just to accommodate its Muslim pupils.

Earlier this year plans for a fashion show were shelved because of lack of interest after a ban on alcohol, in order not to offend Muslim parents, and now a ban on the sale of raffle tickets has also been applied because gambling is forbidden by Islam.

## Don't forget the slave trade and Windrush!

**A** NEW statue has been installed in the Stockwell Memorial Gardens in south London to remind people of the Slave Trade.

It's London's first public statue of an African-Caribbean woman and was unveiled to coincide with the 60th anniversary of the arrival of the Empire Windrush ship to Britain carrying 500 West Indian immigrants.

The 10f high bronzen statue was designed by sculptor Ian Walters, who also created the Nelson Mandela statue in Parliament Square in 2005.

Tanzeem Ahmed, a director of Olmec, the community investment foundation which paid £84,000 for the monument, said it was was "a tribute to the diverse communities that make up British society."

## NEWS IN BRIEF

# Lost in translation

by Steve Johnson

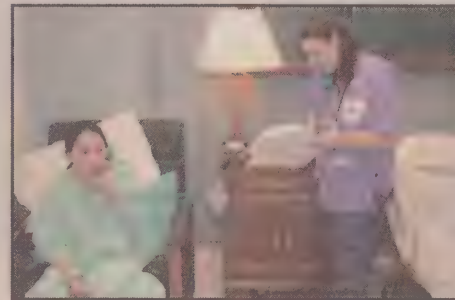

**T**HE National Health Service is having to waste more than £50 million a year, that could be used to save the lives of sick British people, on translators for the vast flood of foreign immigrants who can't speak English.

One in six of the 200 NHS trusts were recently forced to divulge the figure after the Freedom of Information

Act request revealed their spend on interpreters had more than doubled last year.

The biggest spender was Manchester Primary Care Trust, which spent £1.2 million on translation services last year, more than double the previous year's figure. Three other trusts in the same city splashed out £1.5 million between them and eight trusts in London poured £5.5 million down this particular drain.

Other trusts badly hit by massively growing translation bills were Northamptonshire Primary Care Trust, whose costs rose by 82% in a year to

### LANGUAGE LINE:

Hospitals are forced to use a telephone interpretation service that rips them off at a rate of £1 a minute.

£294,000, while the translation costs of Health Service trusts in Cumbria, Dorset and Herefordshire all tripled. Languages for which NHS trusts had to fork out for interpreters last year included Ethiopian tribal dialects Oromo and Tigrinya, and Sorani, a form of Kurdish. Many trusts, hospitals and GPs are forced to use *Language Line*, a phone interpretation service that rips them off at a rate of £1 a minute.

When British people are dying every day because the NHS can't afford the drugs to treat them it is disgusting that these huge sums are being wasted on foreigners, most of whom are not British or often even EU passport holders.

## John Hutton comes clean over Labour's support for EU Army

**L**ABOUR's new Defence Secretary John Hutton, is supporting moves for the creation of a military wing of the European Union, a 'European Army'.

It will be an army at the command of Brussels bureaucrats, and therefore able to be used one day, if necessary, to force EU member states such as Britain to obey them and remain in the European Union, regardless of the will of the people.

Hutton said he was backing a French proposal to create a European Union Army because "France is one of our closest allies militarily".

## BNP recall Trafalgar Day in the Home of the Royal Navy

A DOZEN members of Plymouth BNP held a paper sale and set up a stall in Plymouth city centre on Tuesday October 21st.

In addition to promoting the British National Party, the activity was to remind people about what day it was and special leaflets were handed out informing them of the significance of Trafalgar Day.

The event went down very well in the "Home of the Royal Navy" and provided a great advertisement for the British National Party in the South West.

One of those handing out leaflets, David Moore, told *Freedom*:

"The feedback from the general public was fantastic. People were delighted to see us on the streets campaigning, gaining support and being prepared to stand up for what we believe in."

The Trafalgar Day dinner was organised by Julia Howman to honour Nelson and his victory at Trafalgar.

Funds were raised for Norfolk BNP and also for the *Help for Heroes* charity which supports wounded British soldiers.

## BNP committed to street activism in Bristol & Bath

by Mark Clutterbuck

**T**HE Bristol, Bath and District Branch of the British National Party took to the streets again during October, promoting a message of hope to our native folk in the face of the increasing hardship due to the failed globalist agenda.

On Saturday October 4th we visited Keynsham, a self contained market town between Bristol and Bath that acts as a white flight haven for the more affluent sections of our community escaping more multi-cultural Bristol.

This was followed on Saturday 18th

by a visit to Kingswood which in contrast is a traditional stronghold of straight talking, white working folk.

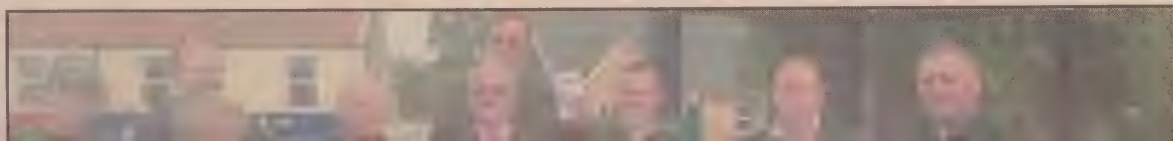

On Saturday 25th, it was Bristol itself, and here as with the other two towns, a locally produced *Patriot* leaflet opposing the destruction of our green belt land was handed out along with the excellent new nationally produced *Enough is Enough* leaflet.

These were used on both occasions to great effect and I have no doubt this will have a significant impact on future support locally. We are committed to this sort of street activism as it draws in the many interested people

receiving a leaflet for the first time, rather than just delivering a leaflet through a letter box where the interest of the recipient is not known.

What was particularly rewarding was that given the many differences in income, environment and experiences of the people of the three areas, the level of support for the BNP was equally enthusiastic in each one.

This puts a lie to the old parties' *class politics*, which has really always been just an attempt to divide and weaken our people by setting them against each other when we desperately need to be working together.

He was the only London Assembly member that spoke out against the motion, giving a humorous account of the other parties' horrified reaction to his opposition.

East Midlands Regional Organiser Geoff Dickens, chaired the meeting and organiser Cllr Lewis Allsebrook, gave a Powerpoint presentation showing the progress made by the BNP in Amber Valley in recent elections.

This time the BNP were really there, unlike in a report printed in the *New Statesman* in January 2004. It was then that journalist Jack Jameson claimed that after his car broke down he was forced to stay a night in Welshpool where the pubs were full of British National Party members singing

German marching songs. When challenged by the British National Party over the report, *New Statesman* editor Peter Wilby was forced to admit that the whole story was made up just for the purpose of smearing the BNP and that his journalist Jameson, had never even been to Welshpool.

The number of postal votes was 255 and calculating from our observations of the contents of each box as they were opened it seemed that we probably got about 14.5% of the votes actually cast on the day. That's a first class result for us here.

## Richard and Mark set high standard at Carlisle Meeting

AS well as having two of the best BNP speakers on the circuit, the October meeting of Carlisle also enjoyed some fascinating contributions from the audience.

GLA member Richard Barnbrook, and Durham school teacher Mark Walker, both received prolonged applause for their excellent speeches which set a high standard of debate for the evening. This was continued by a number of local members present who updated the meeting on the issues that most concerned their neighbourhoods.

Carlisle organiser Alistair Barbour, was understandably very happy with the way the evening went.

"Both Richard and Mark gave impressive addresses and they in turn said how encouraging they found the involvement of people in the meeting and the calibre of those who had made contributions on the local issues."

## Manchester: Labour supporters drum up interest in 'Freedom'

By Derek Adams

ON Saturday October 4th, members of Manchester BNP held a highly successful series of paper sales in the centre of Manchester and across various locations within the city.

Meeting at 9.00am, the BNP enthusiasts braved the rain and set out to meet the public, armed with plenty of copies of the special edition *Freedom* newspaper.

Forming four separate units, the activists distributed so much literature to eager Saturday morning shoppers

that by midday they had run out of supplies.

As a reward for their hard work, the teams then retired to a BNP-friendly pub for an impromptu social where the events of the morning were recounted.

The most amusing incident occurred in the city's Market Street where Labour Party supporters, so incensed by the BNP's presence, screamed abuse at our activists which only succeeded in drawing even further attention to the paper sale as people rushed up to see what all the shouting was about!

stood with the Conservative candidate, a voter walked up to me and asked me which party I represented. I was wearing our rosette of course, and when I told him "the BNP" he immediately said: "Well, I shall be voting for your Party." It couldn't have been a better start to the day.

The number of postal votes was 255 and calculating from our observations of the contents of each box as they were opened it seemed that we probably got about 14.5% of the votes actually cast on the day. That's a first class result for us here.

## Richard and Mark set high standard at Carlisle Meeting

AS well as having two of the best BNP speakers on the circuit, the October meeting of Carlisle also enjoyed some fascinating contributions from the audience.

GLA member Richard Barnbrook, and Durham school teacher Mark Walker, both received prolonged applause for their excellent speeches which set a high standard of debate for the evening. This was continued by a number of local members present who updated the meeting on the issues that most concerned their neighbourhoods.

# Government propaganda is changing the face of Britain

by John Maddox

**T**HE number of women having abortions rose to a depressing 198,500 in 2007.

Paradoxically, the increase in the abortion figure is a partial consequence of the ever increasing use of contraception, promoted by the Government. A recent study found failure rates during the first year of use of 12% for condoms, 3% for the pill, 3% for the coil, and 18% for the diaphragm. With half of all unintended pregnancies ending in abortion, this failure of our contraceptives increases the number of abortions.

The Government openly promotes abortion and contraception at every opportunity. So it is no wonder that the birthrate amongst indigenous British women is so low - currently just 1.7 children per family, although a birthrate of at least 2.4 is needed just for the real British population to remain stable.

This policy has two detrimental effects. Firstly, our population is quickly ageing, and with insufficient numbers of indigenous children being born, the result will be that the British will become an ever-declining minority in their own country by 2060. According to the latest figures from the Office of National Statistics (ONS) there are now more pensioners than under 16's in this country for the first time ever. Secondly, Britain is being colonised by

immigration. The same ONS figures reveal that a record 600,000 immigrants flooded into Britain in 2007 - which is over 1,650 every day. The number of these incomers swamping Britain has risen by 1.1 million in 3 years!

So while the indigenous birthrate has been decimated by contraception and abortion, the immigrant birthrate is soaring. Now, nearly a quarter of

babies born in Britain are to foreign-born mothers and this figure does not include babies born to immigrants whose families have been here for more than one generation.

In London in 2007, 54% of all babies were born to foreign-born mothers; in the borough of Newham they accounted for 75% of all births!

These are worrying figures and current trends must be reversed.

Britons should be encouraged to rediscover the fulfilment of family life and Government support should be available to ensure that mothers are able to stay at home and raise their family.

The Government's incessant propaganda in favour of abortion and contraception must be rejected, as it jeopardises the survival of the British people.

**PRIORITY:** To rediscover the fulfilment of family life.

**No hearth & home for us**

**I** FOUND it unbelievably sad watching a couple on *Channel 4 News* as they tried to grapple with the fact that they were about to have their house repossessed and lose their home.

Earlier on in the year the husband, who had worked in the construction industry, had lost his job and now with the mortgage £4,000 in arrears they were about to lose the roof over their head as well.

From where they were standing you could see that they had lavished a lot of loving care on the house, but that was not enough to prevent them from being forced out as they were now trapped in negative equity. The man was at the end of his tether. As the traditional bread winner of the family, the loss of his home had been just too much for him to bear.

Once upon a time they would have been able to fall back on the council to rehouse them, but today this is not always an option as all the decent council housing stock has been sold off and there is much competition for what remains, especially when competing with the immigrants who usually get priority because of their larger families.

My own grandfather was a house builder and in those days he would have assumed that he was building for his own people. It would never have occurred to him that one day those from other lands would move in and be occupying the houses, while many of our young are left to live with parents as they cannot afford to get on the housing ladder.

According to Shelter the fallout from the credit crunch will widen the gap between supply and demand for social housing and the impact on social cohesion could be devastating.

It will have a similar effect on community cohesion as well, when our people look around and see today that in our cities, terrace after terrace and street after street are now occupied by those from other lands, and it is us, in our own country, that are often left waiting for a decent roof over our heads.

## Contemplating the loss of our Common Sense

**T**ODAY we must mourn the loss of a trusted life-long companion, Common Sense.

With us from our earliest memory, Common Sense was there to instill in us some basic ground rules for coping with the complexities of life. Knowing when to come in out of the rain, for example and why the early bird always gets the worm. It broke the hard news that life wasn't always fair and that sometimes it was the right thing to do and own up

and say 'yes it was my fault'.

Common Sense offered simple sound advice on finance - don't spend more than you earn, and simple understanding of the pecking order - it is adults, not children, that are in charge.

Common Sense has been replaced by politically correct **Non Sense**. The 6 year-old boy, for example, charged with sexual harassment for kissing a classmate; the pupils suspended from school for using mouthwash after lunch; and the teacher fired for reprimanding an unruly student, all undermined ground rules we had been brought up on.

Parents now criticise teachers for doing the job that they themselves have failed to do in disciplining their own children. Schools are required to get parental consent to administer sun lotion or an aspirin to a student; yet aren't allowed to inform parents when their daughter becomes pregnant and wants to have an abortion.

Our churches are closing down and being replaced by mosques yet our clergy tell us to welcome Islam. Crimi-

nals in prison receive better treatment than their victims.

When a burglar enters your home you are not allowed to defend yourself or your property because you could be sued for assault. With Common Sense gone, we now live in a compensation culture where a woman failing to realise that a steaming cup of coffee was hot, was awarded a huge settlement when she spilled it on her lap.

Other fine traditional British traits have disappeared too, such as truth and trust, discretion, responsibility and reason. Gone too is the stiff upper lip, so much the character of native Britons. Now everyone interviewed on TV is blubbing. Good news, bad news, it doesn't really matter, it seems that now we are incapable of containing our emotions. Today, in politically correct Britain, there are new ground rules for the future generations: I Know My Rights, I Want It Now, Someone Else Is To Blame, and I'm A Victim.

*Isn't it a pity that we can't just turn the clock back?*

Just look back to World War II and recall how we were dragged into a war we could ill afford due to an agreement we had made to come to the aid of Poland, to see ourselves placed in the same position again.

For all his posturing one can't help wondering who David Milliband speaks for. Does he really speak for the man in the street?

Let us not forget that the Russia we are dealing with today is not the same USSR that crashed its way into Czechoslovakia in 1968. It was then determined to defend Communism, an ideology which from its inception has inflicted more death and misery on the world than any other. Communism thankfully fell in a spectacular collapse and a more nationalist Russia has risen from the ashes. The world would do well to do business with it if it wishes to stay prosperous.

**One can only hope that the neocons don't use their influence to prevent this: such influence helped to bring about the disastrous war in Iraq and any further meddling by them could bring on something of Armageddon proportions.**

On these moors, the super-rich clients of the giant corporations who mostly own them, and the cronies of

the Arab and Russian billionaires who own almost all of the remainder, blast away to rack up the biggest slaughter of red grouse to brag about to their City chums.

Court cases involving illegal killing of birds of prey reveal, that in order to ensure an adequate supply of red grouse, the City bosses bully their gamekeepers into setting illegal poison baits for eagles and other birds of prey such as red kites, on their moors.

Last August, for example, the female of the last remaining pair of golden eagles in the Scottish Borders fell victim to the big bosses' poisoners.

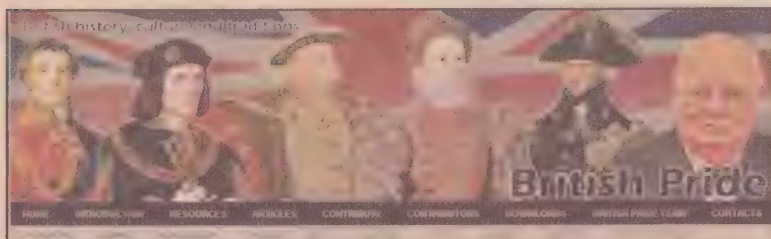

But now the billionaires, bank bosses and speculators are facing hard times. They can't now afford to slaughter their way across Scotland's moors and several "shoots" are in financial trouble.

That's welcome news for millions of ordinary Britons who find the magnificent sight of eagles soaring in the skies of our homeland an inspiration worth preserving for our children. **B**ITAIN has a glorious past, but today our history and culture is being deliberately suppressed.

British history is no longer taught in schools, and our young people have

But this is about to change and our people are going to start to feel pride in being British once again.

The British National Party has a responsibility to ensure that our long and illustrious history and way of life does not disappear in politically-correct modern Britain. It is our duty to

The British National Party has a responsibility to ensure that our long and illustrious history and way of life does not disappear in politically-correct modern Britain. It is our duty to keep our culture, traditions and way of life intact, and to hand them down to future generations.

This is why the Party has launched a new historical and cultural action group called British Pride. The aim of British Pride is to resurrect British history, culture, and our native way of life, all of which are under threat in modern Britain. British Pride aims to spread awareness, and to act as a resource centre for British cultural activism and its director Paul Golding, believes that the group will make a real impact:

"We are going to be a thorn in the side of the politically-correct establishment. The website is just the start, and we shall be organising campaigns that will return to our people a pride in their history."

**TREASURE TROVE:** Two Mile Wood.

Undeterred, the Government has signed a compulsory purchase order for the felling of several acres of Two Mile Wood in Dorset. This remnant of ancient forest, which has Thomas Hardy connections, is one of the finest bluebell woods in Britain, yet it's being sacrificed to make way for a bypass. Our ancient woodland is irreplaceable. It provides a habitat for wildlife, and a home for rare and threatened species. Once these woods have gone, an historical treasure trove will be lost to the nation forever.

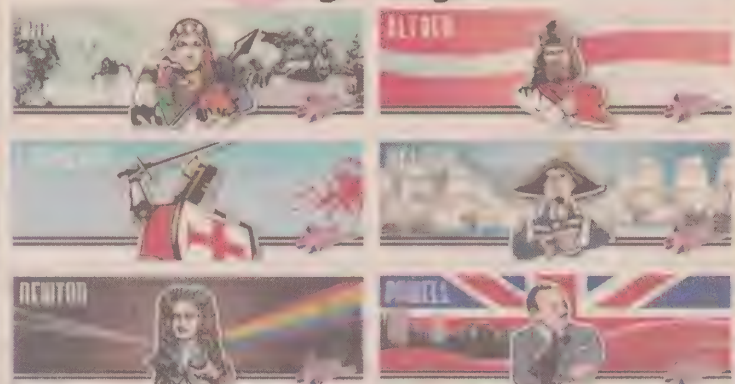

If these woods were buildings they would be protected to the highest grading, our natural heritage should be afforded the same importance.

## Let this House of Mammon fall

**B**ANKERS and politicians are still scurrying around frantically trying to shore up their collapsing International Finance system using our hard-earned money. But their efforts are doomed to fail, even if they keep it tottering for a little while longer - and they deserve to fail for the International Finance system is rotten to the core.

It is a swindle driven by the obscene greed of the bankers and con-artists who run it. It is fraudulent because its central plank is to lend far more money than it has deposited which breaks the fundamental rule of secure banking.

The multi-cultural lobby embedded within our media is clearly in overdrive rewriting and distorting our history, legend and heritage. They are trying to make us believe that we were being 'enriched' even back then!

I suspect they have some other vital tasks on the agenda such as revisiting the Bayeux Tapestry for a bit of hasty needlework to reveal the vital role played by Blacks during the 1066 invasion before moving on to publicise the key role of all those Black regiments at Waterloo!

As sales manager, I visited many other Japanese companies with factories in the UK and without exception, the managing and financial directors were always Japanese. Put very simply, if you control policy and the money, then you control all that matters.

Due to his bad management of our economy over the past ten years, Gordon Brown has put us in a very weak financial position which will provide the European Union the opportunity they have been waiting for. Currently the pound is plummeting on the foreign exchanges and the EU will be seeking to persuade Brown to surrender Sterling and replace it with the Euro.

The EU already controls our policy, once they have our money as well the destruction of Britain will then really begin.

## Media nurturing Islam in Lincoln

**T**HE moderator of the Christian Council of Britain and BNP vicar, the Reverend Robert West, has called for more honesty in the media when discussing Islam.

He is worried that the growth of Islam in Lincolnshire is being reported as something beneficial to the region, when the reality is the opposite.

"It is a grave worry to Christians in this county as to what has been invited into our midst and the media is now nurturing," he said.

## David Clitheroe

**I**T IS with great sadness that I have to report the death of a loyal member of Scarborough & Ryedale BNP, David Clitheroe, who died suddenly on 11th October 2008.

## Colin to tackle Express & Echo's political prejudice

**W**HEN British National Party councillor Colin Fribbens, attended a recent meeting of his local Chamber of Commerce, one of the speakers was promoting the *Exeter Express & Echo*.

She was from the newspaper's business section and was there to try to encourage local companies to advertise in the newspaper, and because of the difficult economic climate, the *Express & Echo* were offering a special deal of a front page advert for just £380.

Now Colin thought that this was an ideal opportunity to promote his courier firm, so filled in the form and sent off his cheque and photo, hoping to be in the next day's newspaper - but that wasn't to be the case.

"I received a telephone call from the lady concerned, informing me that because of my political connections

the newspaper refused to carry my advertisement," Colin told *Freedom*.

"My politics and my work as a councillor have nothing to do with my business. I am a law abiding citizen running a local business that helps communication and delivery between companies here in the South West, yet I have been discriminated against and refused the opportunity to advertise in the newspaper because of my politics. "The British National Party is a legal political party, compliant with all the criteria laid down by the Election Commission in order to be registered as such. It is totally wrong that individual editors can inflict their political prejudices on others to deny them the right to make a living," he said.

Colin has now written to the owners of the *Express & Echo* and also put the matter in the hands of his solicitor.

# Herne Bay election gives BNP a lift in Kent

## Demo at count

THE count for the Herne Bay by-election was disrupted by Labour Party thugs who brought the count to a halt by their shouting and swearing. Chanting "Nazi scum" and "You are going to f\*\*\*ing die Whiting", they held up placards and abused security staff. The BNP candidate admitted to reporters that he had been upset by the attack. "It was inappropriate and just indicates the closed minds they have," he said. "I don't have a thick-skin but I've been in the game long enough to know what to expect."

DENNIS WHITING: Boosted by vote.

THERE was a very good election result for the British National Party in Herne Bay last month. In a county council by-election, the BNP candidate Dennis Whiting, polled a very respectable 8% of the vote in what is a Tory dominated area of Kent. It was especially pleasing for Dennis Whiting because for many years he has been the mainstay of the BNP in

the area and, during the 'dark days', often the lone BNP voice. The result will certainly provide an incentive for the Party to now go on and grow and that's the hope of South East Regional Organiser Andy McBride. "Dennis ran a good campaign organised at very short notice in a ward that has never had a BNP leaflet before. Our 399 votes was a better-than-expected result and we now have a foothold in yet another Tory-controlled part of Kent," he said. The combined BNP and UKIP vote would have been enough to take third place off Labour, and with UKIP indicating that they are unlikely to contest the seat again, our strong showing bodes well for the future.

## Growing enthusiasm for papersales in South Birmingham

MEMBERS of South Birmingham BNP braved icy winds to launch a papersales tour of the 12 wards that make up their area in Cotteridge.

In this particular ward a planning application has been submitted to convert a community centre into a mosque so the leaflets handed out, warning of the growth of Islam, were keenly snapped up by shoppers.

The following week more helpers were on hand in better weather for a visit to Northfield and then more again seven days later for a sale in Billesley. Once again a new mosque was a big issue with residents revealing that a planning application had been submitted for a change of use for their old

medical centre to a mosque.

South Birmingham organiser Les Orton, met with local residents who told him that a petition against the proposed change containing over 600 signatures had already been sent to the council.

**O**n Sunday September 28th, British National Party officials from the North East and Cumbria attended an intensive all day training seminar in Spennymoor, Co Durham.

Ken Booth, the North East's Regional Organiser, and Publicity Director Mark Collett, worked together to give first class, 'hands on' tutorials in IT and Risograph printing.

Working on a laptop that was projected onto a large screen, Ken and Mark took their colleagues, step by step, through a variety of necessary processes, with those attending bringing their own computers and actually completing designs and managing lists as part of the course. Unlike many tutorials, those attending actually worked with real data and produced lists and leaflets that were then printed out to be used as master copies for the instruction in mass leaflet printing.

Ken Booth then printed the leaflets designed that day on one of the party's duplicators of which there are now eight in the North

East and Cumbria.

Martin Reynolds, head of BNP Security, held a training day in a second venue for the security recruits. This covered all aspects of security including self defence lessons.

IT'S THE WAY HE TELLS THEM: Bill Murray, along with a record audience enjoy another joke from Dr Phil Edwards.

## Tales from the Press Office for Wrexham BNP

**M**ARXIST journalists in the media have tried to turn people away from their natural instincts for nationalism, patriotism and traditional family values, and push them towards unnatural ones such as multi-culturalism, multi-racialism and globalism. That's the message the BNP's Wrexham branch heard at its October meeting from Dr Phil Edwards, the Party's former national press officer. He was speaking to a record audience for a BNP meeting in North Wales and he gave the enthusiastic audience numerous examples of how he had dealt with such politically correct journalists during his long career. The first speaker of the evening was local councillor Mal Roberts, who

is the British National Party's prospective parliamentary candidate for Wrexham. He gave a talk on the downside of the large scale immigration of recent years and the devastating effect this has had on local communities. It was then Dr Edwards' turn, and his recollections of his time in the BNP Press Office prompted numerous rounds of applause and prolonged bouts of laughter. Bill Murray, the Welsh Regional Secretary and Wrexham organiser, closed the meeting after informing those present that BNP groups in Wrexham, Liverpool and the Wirral were in contact and planning to hold joint *Days of Action*. He urged anyone who wanted to be part of these activities to contact him on 07864 771630.

**NHS In Crisis**

**A £512 Million Deficit**

Health Secretary Patricia Hewitt was forced to admit that the NHS deficit has reached £512 million - more than double the £200 million target.

**15,000 NHS Jobs Face The Axe**

In a desperate bid to cut costs in the face of the huge £512 million deficit, over 15,000 NHS jobs are to be axed. This means more understaffed hospitals.

**1,000 NHS Beds To Go**

More Labour cuts are on the way to reduce costs. A further 1,000 beds are to go this year alone.

**Crime & Antisocial Behaviour Are Out Of Control**

Robberies are up, burglaries and sexual assaults are up, burglaries are up. A wave of anti-social behaviour is sweeping our streets and estates with a growing number of people making the environment for the law abiding majority. But where are all the police? Set behind desks learning how to be politically correct.

When the police aren't out in office they're far too busy chasing down the streets in a range of different times and pressures to get more Labour voters to join. It seems that the Labour view the situation as the only real threat to their rule.

But when the police are out of the streets and the real criminals are free to roam, decent people live.

The British National Party would put police back on the streets where they belong. The police would not have their hands tied by politically correct hand cuffs and would be able to deal with criminals without fear of losing their jobs.
